Unique Features That Make Timeslips the Leader

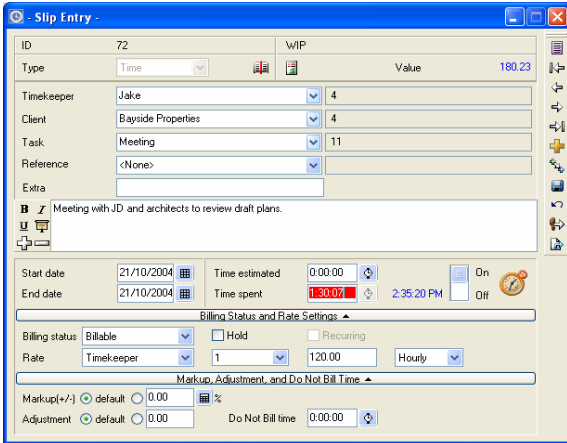

Timeslips 2005 provides many unique features that other time and billing products don't offer.

- **NEW!** Two-way integration with Microsoft® Outlook ** turns Time spent on tasks, e-mails and more into billable entries in Timeslips 2005.
- **IMPROVED!** The intuitive drag and drop bill design tool makes it easy to create custom bills.
- Timeslips Today® is a customisable snapshot of your entire billing cycle. Bring everything you need to know together on one screen for easy reference.
- Making updates to multiple records is easy! You can easily change a billing rate, task date, or a client's bill format and all related records are updated.
- While other products have limits, Timeslips 2005 allows up to 25,000 timekeepers, clients and task names.
- Custom fields allow you to track every detail that's important to you. Create up to 30 custom fields for client, timekeeper and task names.
- Dozens of preference settings let each user tailor Timeslips to the way they work. Change program-wide terminology; create custom categories; set default values, and even turn off features that you don't use.

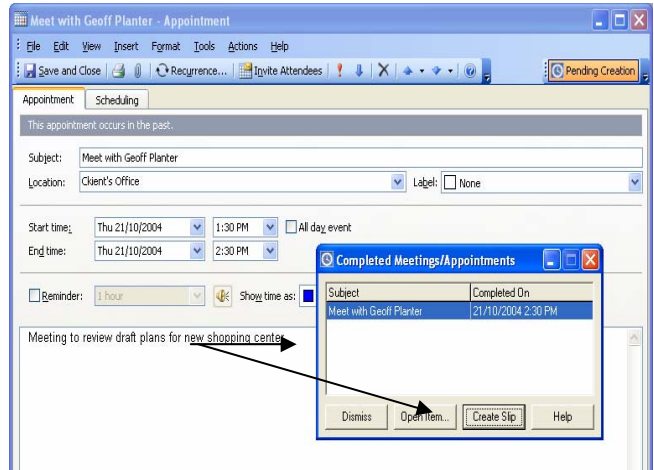

** Outlook integration requires Microsoft Outlook 2000, 2002 or 2003.

Timeslips Features

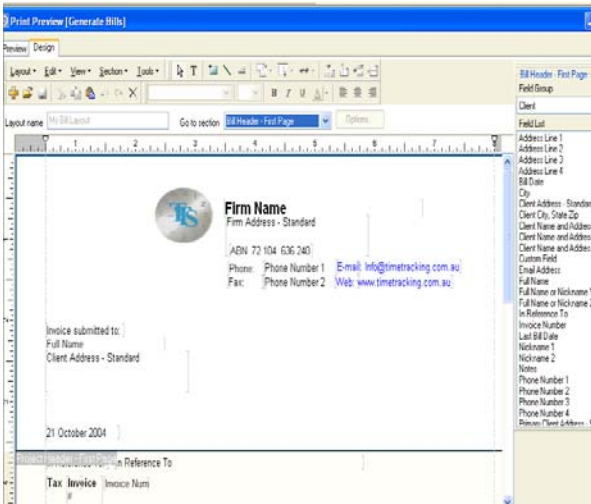

Time Tracking is a Snap with Timeslips

A critical element of any service business is accurate time recording so Timeslips 2005 makes it easy to track your time and expenses.

Capture Even More Billable Time with Outlook Integration

NEW! Two way integration with Microsoft Outlook allows you to turn time spent on tasks, e-mails and more into billable entries. Outlook integration requires Microsoft Outlook 2000, 2002 or 2003.

Timeslips Consultants

Need assistance with Timeslips? If you are in a capital city, there may be a Timeslips Consultant in your area that can assist. Call or e-mail us for further information.

Timeslips Add-on Solutions & System Requirements*

Remote Solutions

Timeslips offers remote solutions for customers who want to take advantage of Timeslips away from their desktops.

Timeslips Remote™ is a stand alone version of the time and expense entry portion of Timeslips that's ideal for laptop users. Time Reporter® for Palm devices makes it easy to create time and expense entries away from the office and then quickly integrate them with your Timeslips main billing computer.

Timeslips eCenter

Anyone with access to an internet connected computer can now create Timeslips time and expense slips. A fast simple interface that maintains the familiar Timeslips design makes time and expense entry easy. A free trial version is available at www.timeslipsecenter.com

Networking Features

You can purchase the standard edition of Timeslips 2005 and add additional network stations for each networked computer in your office, or purchase the Timeslips 2005 Multi-User Value Pack with either five networked licenses or ten networked licenses, for the best value. Unique, detailed security profiles may be set for each user and audit trails show the date and time of any action performed by the timekeeper who was logged into the database.

System Requirements

- Customer registration and acceptance of license agreement for Timeslips software is required.
- Windows 98 SE, Windows 2000 with SP 1 or 2, or Windows XP.
- IBM PC Compatible with 333MHz Pentium Processor, AMD or compatible processor. 400MHz or higher compatible processor recommended.
